3/2/01	II	CCR	

13. Office Manager Signature/Date	14. Category of Change:	15. Priority: (If "Emergency" fill in Block 28).
for Tim Ortiz 3/2/01	Update ECS Baseline Doc.	Routine

16. Documentation/Drawings Impacted:	17. Schedule Impact:	18. CI(s) Affected:
N/A	N/A	All

19. Release Affected by this Change:	20. Date due to Customer:	21. Estimated Cost:
5B	n/a	None - Under 100K

22. Source Reference: ☐NCR (attach) ☐Action Item ☐Tech Ref. ☐GSFC ☒Other:
PSR of Version 5B.07 software .

23. Problem: (use additional Sheets if necessary)
Version 5B.07 PSR (release to the DAACs).
CM has provided TAR files of 5B.07 baseline to the SMC at the 5B.07 Turnover to Test. There is no change to those files provided at that time. Following PSR sign-off, these files should be released to the DAACs. TAR Files Include: SUN55, IRIX6.5, and 6.5 Toolkit (all flavors). Note: CM has already provided these TAR files to the SMC (by authoriztion of a previous CCR) -- so no additional action required of CM/clearcase.

24. Proposed Solution: (use additional sheets if necessary)
Upon successful PSR, approved 5B.07 is to be released to the DAACs. PVC and VATC has already taken delivery of TAR files by authorization of a previous CCR (at turnover to test).

25. Alternate Solution: (use additional sheets if necessary)
none

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
Delays in getting NCR fixes and 5B.07 functionality to the DAACs.

27. Justification for Emergency (If Block 15 is "Emergency"):
Needs to be delivered by 5 MAR 2001 so that DAAC installation and testing can begin.

28. Site(s) Affected: ☐EDF ☒PVC ☒VATC ☒EDC ☒GSFC ☒LaRC ☒NSIDC ☒SMC ☐AK ☐JPL ☐EOC ☐IDG Test Cell ☐Other

Title of Change: Software Version 5B.07 PSR. Delivery to the DAACs

Delivery Instructions for 5B.07 Turnover to Test:

NOTE: ALL of the ACTIONS indicated below have already completed (by authorization of a previous CCR) except SMC delivery of TAR files to the DAACs.

For this turnover, CM will need to run makedeliver to build TAR files from the 5B07 (5B6A) baseline.

TAR file(s) for the TOOLKIT (6.5) all flavors,
TAR file(s) for the software for the Sun 55 Platforms,
TAR file(s) for the software for the IRIX65 Platforms.

CM will need to make available a listing of the TAR files and checksums of the TAR files.

CM will need to deliver the TAR files to the SMC.

The SMC will make these files available to all sites.

Installation Instructions for the 5B.07 Software has been posted and is provided under separate cover in the VDD document, 'Version 2 Drop 5B.07 Release for the ECS Project, 914-TDA-147, March 5, 2001.

5B.07 PDPS Database Patch Workaround

Prior to installing the 5B.07 PDPS database patch, you must update the existing database to remove all database version records greater than 5113 and to set the current version flag is set to "Y" for database version 5113. To perform these actions:

```
> isql -S <server_name> -U <db_user_name> -P <db_user_password>
> use pdps[_<MODE>]
> go
> delete EcDbDatabaseVersions where EcDbSchemaVersionId > 5113
> go
> update EcDbDatabaseVersions
> set EcDbCurrentVersionFlag = "Y" where EcDbSchemaVersionId = 5113
> go
> exit
```

Once this is completed, follow the steps indicated in the PDPS section (12) of the 5B.07 installation instructions to patch the PDPS database. While running the database patch, the following error message will be displayed during the processing of patch 5B.24:

> Msg 213, Level 16, State 4:
> Insert error: column name or number of supplied values does not match table definition

This error message may be safely ignored.
