24. Description of Change: (use additional Sheets if necessary) In order to reduce the noise levels in the ECS OPs area, it is requested that two RAIDS connected to I0ms01, and I0ms20, respectively, be moved to another area of the DAAC. These RAIDS are currently located next to the OPERATION's area.						
25. Proposed Solution: (use additional sheets if necessary) I0ms01 and I0ms20 RAIDS are to be moved to reduce noise. It is requested that approval be given to place these RAIDS next to the M&O RAIDS. (SEE ATTACHED DRAWING)						
26. Alternate Solution: (use additional sheets if necessary) No alternate solution is offered because this is the lowest cost and lowest risk relocation of the existing HW.						
27. Consequences if Change(s) are not approved: (use additional sheets if necessary) Continued unfriendly environment & continued unnecessary high levels of noise in the OPs area created by equipment that should be located elsewhere. This could lead to miscommunications among mission personnel resulting in less than desired results.						
28. Justification for Emergency (If Block 15 is "Emergency"):
